

Technology & Innovation

Be Introduced to Cutting Edge Technologies & Their Implications! How will Technology Impact Patient Care? With a Special introduction to MindMap Organizational Thought!

In this workshop adventure, with guides Dan Weberg (BSN, RN, MHI), Dan Nienhauser (MBA, MHI), Sandra Davidson (PHD(C), MSN, RN, CNE) and Kathy Malloch (PhD, MBA, RN, FAAN), participants will be introduced to technological advances and new ways of thinking about these technologies. We all know our world is rapidly changing, and change is the only constant! First understand the technologies & tools! Then begin to strategize how patient care might change for the better?

Innovation perspectives applied to technology can begin to open up an entirely new world!

This workshop is designed to INTRODUCE you to opportunities and trends that will have an impact on your lives, and can be leveraged in healthcare today.

ADVANCED workshops will follow this introductory session to delve much further into innovative strategies to assess, brainstorm, team building and communication strategies through technology and MindMapping.

Date: December 9th, 2008. Two (2) Identical Sessions. Limited Seating, so act now.
7:30am-10am, Session I
12:30pm-3pm, Session II

This introductory workshop is for anyone who works in healthcare (or any industry) that is interested in learning more about new technologies and how to organize innovative processes using technological tools (MindMap). This is an introductory and relatively short session, so any computer skill level is welcome to come and think outside the box!

The MHI Program is pleased to now be located in our new *Healthcare Innovation Lab*. [ASU Downtown Campus, Mercado A Building](#).

Cost is only \$49 per participant (\$40 for early-registration - extended until Nov. 25th). And only \$35 per participant for groups of 5 or more from same institution.
